Dr. Nurzal Effiyana binti Ghazali

Research Fellow

UTM Centre for Engineering Education

Senior Lecturer

School of Electrical Engineering

Apple Teacher

appleteacher.apple.com

Certificate of Recognition

Dr. Nurzal Effiyana Ghazali

Awarded on April 16, 2020

Universiti Teknologi Malaysia
Johor Bahru, Johor

Survey Result

Do you familiar using Keynote?

37 responses

Presentation Outline

- Introduction to Keynote
- Introduction to QuickTime Player
- Introduction to iMovie

Learning Outcomes

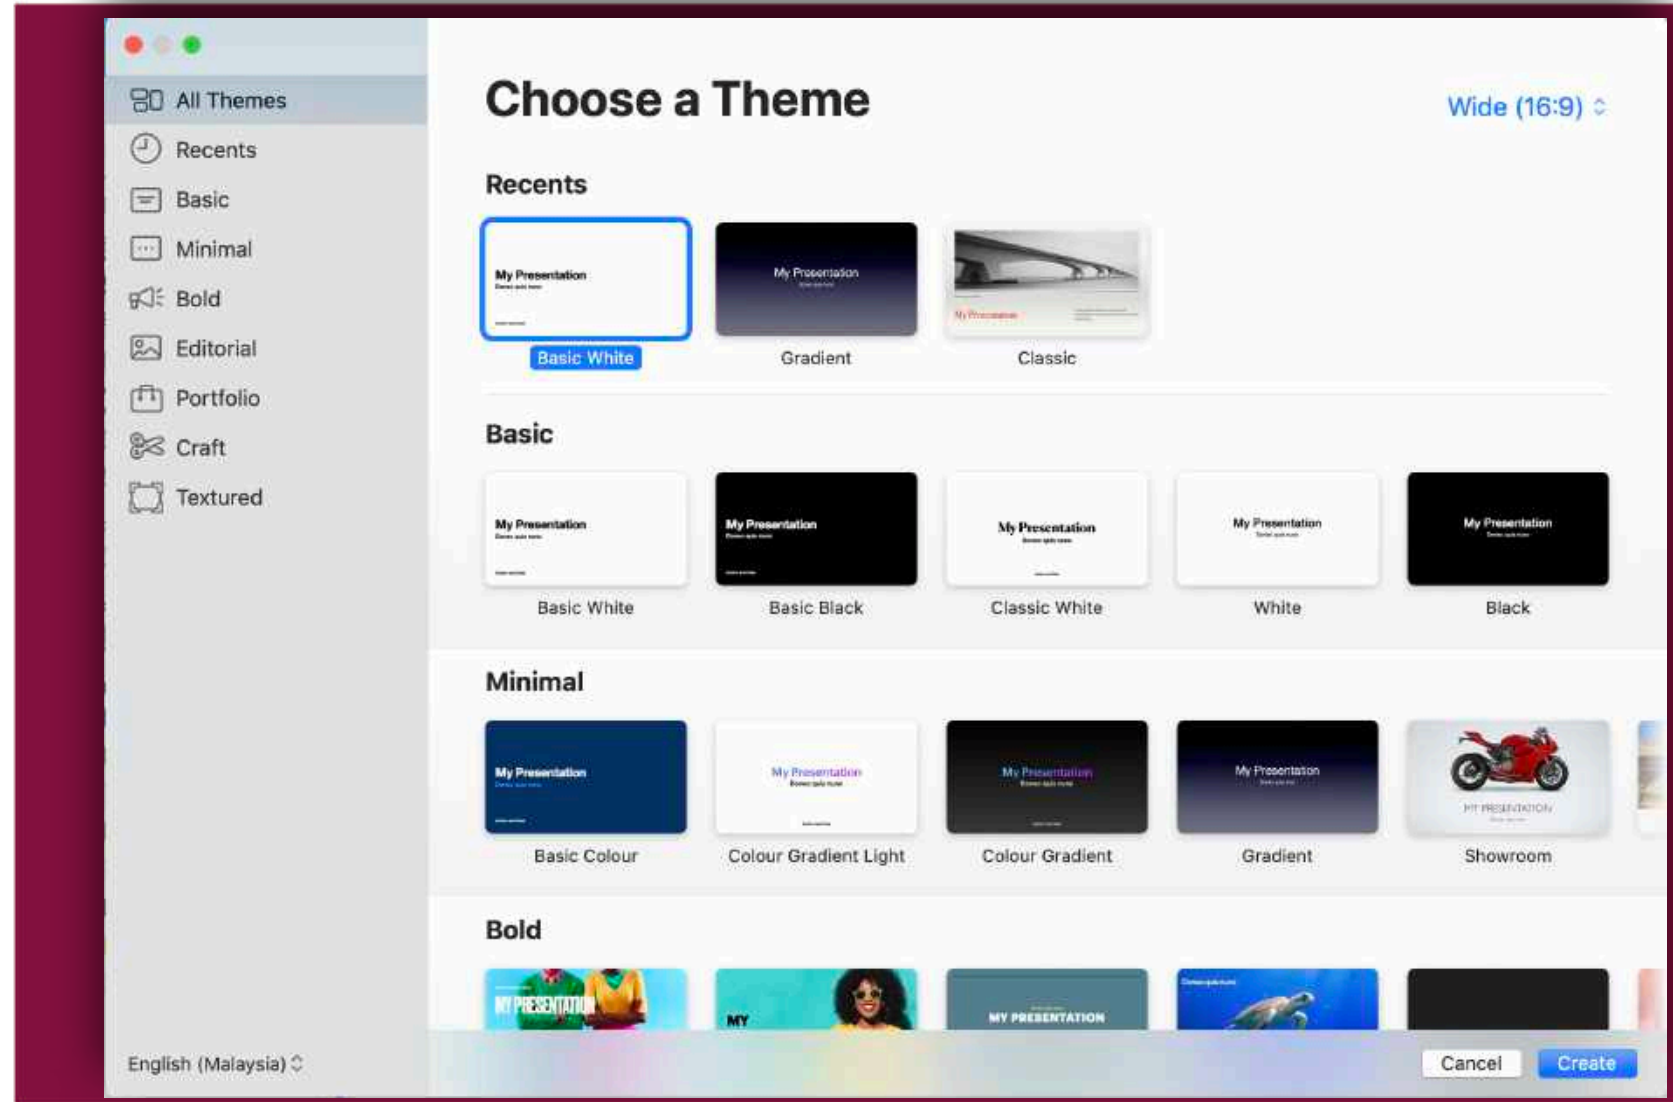

- Able to use Keynote for recording with narration
- Able to edit recorded video in Keynote
- Able to use QuickTime Player for screen recording with face
- Able to use iMovie to edit recorded video

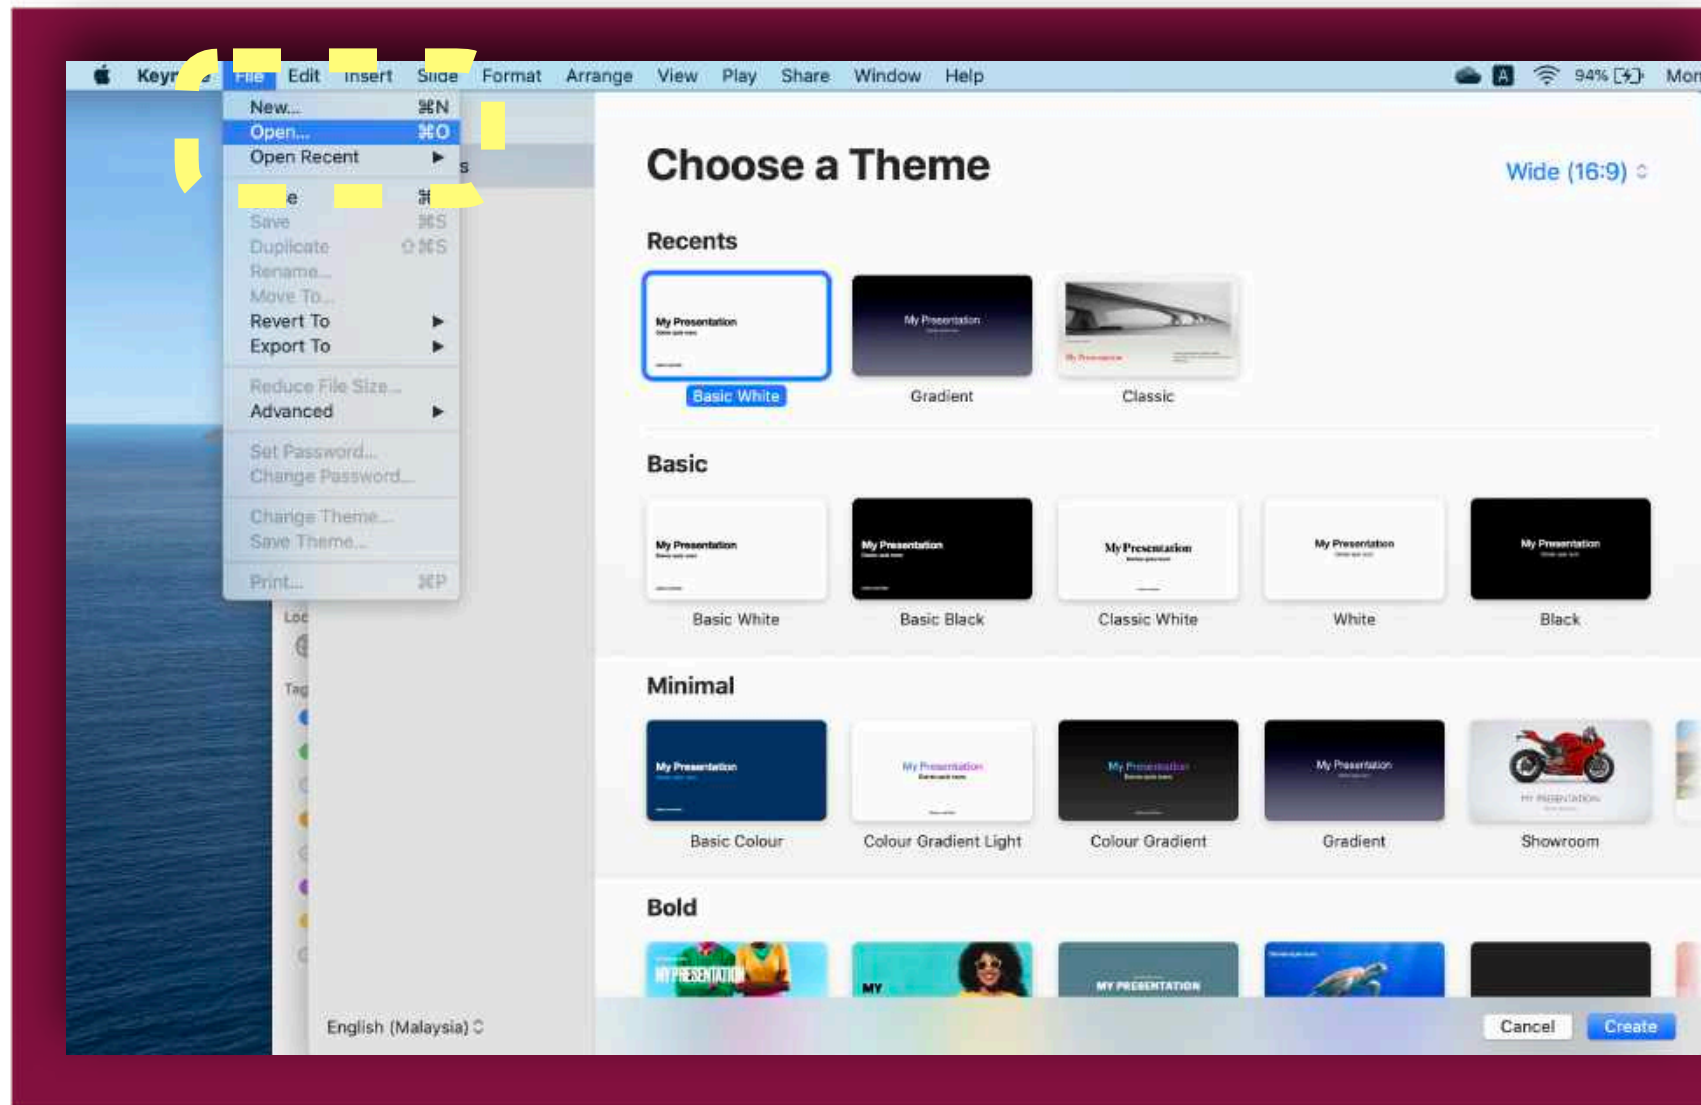

- Creating Slides
- Record Slides
- Video editing

- Recording with webcam

Customise Presenter Display

Recording using Keynote

Recording using Keynote

The screenshot shows the Keynote application interface. At the top center, a timer displays "00:00:00". In the top left corner, there is a "Show Navigator" button and a tooltip that says "Show the slide navigator.". The main area is split into two panes: the left pane shows the current slide, "Current: Slide 1 of 5", which features the UTM logo and a decorative orange and yellow border; the right pane is titled "Presenter Notes" and is currently empty. At the bottom of the interface, a control bar contains several icons, including a red stop button, which is circled in red. Below the control bar, the text "Builds Remaining: 1" is visible.
